MARTIN M. HAZAN

President/CEO

For more than twenty years **Martin M. Hazan** has served the Luxury Travel industry in several different capacities. Martin started his career in sales and marketing and has worked for several top companies ie: Sentient Flight Group, JetDirect Charter and Atlantic Aviation, helping to grow their business. Martin has had an unprecedented closing ratio of nearly 90% throughout his career. Working with some of the best people in the industry enabled Martin to sharpen his skills and early on he realized that he was on a formidable career path. Martin has proven time and time again that exceeding client expectations will lead to increased sales and more importantly secure client retention.

In 2004, Martin started his own company A Y S Jets, LLC (At Your Service Jets) a private jet charter firm specializing in corporate travel. In 2008 Martin founded **Harley** Hula Company, LLC to provide his elite corporate clients with the option to secure luxury travel for their personal needs. While operating both companies, Martin realized the need to focus on his clients' growing business travel requirements. In mid 2008 Private Jets VIP was born. With an award winning website www.privatejetsvip.com Private Jets VIP incorporates today's technology through an exclusive **flight planner** tool, offering the client a user friendly way to acquire an instant charter quote online.

Martin has focused on superior client service and going above and beyond the call of duty. Martin attributes his success in the luxury travel industry to his ability to adapt to the changing economic times. Martin says, "It is necessary to provide superior client service each and every day, while giving your clients a real value for their money" This philosophy is the foundation that Private Jets VIP is built on. Private Jets VIP works with an exclusive network of "Preferred Suppliers" that must meet or exceed strict FAA guidelines. All suppliers are required to meet industry **safety** standards, provide superior client service and exceed client expectations.

In mid 2009 as a true entrepreneur, Martin has adjusted quickly and has diversified the jet chartering business by using its connections to the entertainment industry. Martin has launched a complementary new business venture Coast to Coast VIP Productions. This venture is an initiative which provides new innovative artists with music production, song writing, marketing, corporate sponsorships, and movie deals. The services will also include a complimentary one hour consultation for executives who charter flights with Private Jets VIP. Martin has positioned the combined venture to gain key information about cutting-edge innovative trends from direct sources, and is willing to share his insight to help executives rebuild our economy.

While many company executives are conducting "business as usual" Martin continues to think out of the box and strives to offer more **options** to his discerning clientele.....**Martin M. Hazan...In a Class by Himself.**

Safety

Private Jets VIP clients do not sacrifice safety when they choose private air charter over commercial airlines; in fact, business aircraft have compiled an outstanding safety record in recent years, comparable to or better than that of the airlines. Moreover, the level of control afforded to those choosing private aviation often increases the traveler's sense of safety. And private jets obviously offer much greater security in terms of the protection of sensitive business information.

Private Jets VIP enhances the inherent safety of private aviation with its own high level of security standards as it regards to both the equipment and its operators.

- The aircraft must meet the profile and model type of those in the Private Jets VIP program
- The Owner must carry appropriate level of insurance and up-to-date documentation

- Have proper insurance commitments and documentation
- Execute and adhere to a "Private Jets VIP Provider Agreement"
